

**Happy 4th of July!**

*"And I'm proud to be an American, where at least I know I'm free. And I won't forget the men who died, who gave that right to me." - Lee Greenwood*

## New gadgets and gizmos

Everything is becoming more and more automated these days. Take for instance the new gadgets for your home such as the Robomow, a robot lawnmower, Irobot Roomba, a robot vacuum, and the instaview or Knock fridge.

Lets start with the Robomow. This is a lawnmower that ranges from 7in for \$600 up to 22 in for \$2,100 that can mow up to a 1/2 acre (on the 22in). You can control it from your smart phone too! It can handle several zones and mow each one individual with no gas. It can sense high humidity and choose weather or not it will operate if it senses rain. Well, that sure beats the push reel lawnmower, which can still be purchased for \$125.00 by the way.

### **Onto Irobot Roomba. Well that's sure a techy name for a vacuum cleaner. This**

item is similar in size to the robomow. It too uses a docking system for charging and maneuvers around your house at your command or a schedule of your choice, up to 7 days a week. It can do all floor types, automatically adjusting in-between each. It easily picks up dust, pet hair, and large debris like cereal. It too has sensors to help it navigate furniture, beds, stairs, drop offs and more. All of this for around \$300. Would you buy it?

Have you ever found your children standing there with the fridge door open, **“just looking”**? **Well LG has solved this problem with their new instaview or Knock-Knock fridge.** This fridge features french doors and all the standard features such as ice maker and multi air flow technology to maintain optimal humidity and temperature. It does offer lighted shelves that allow you to see **inside with a “knock” on the door with out opening.** **Yes, you knock and you** can see through the door for \$6,300.

Well, now if we could only get them to stop leaving the front door open.

## Casino Day is upon us!

Per residents request to host a themed casino day, the date has been set for July 20<sup>th</sup> at 10:30<sup>am</sup> We will have slot machines, poker,

blackjack, higher or lower, horse racing, and roulette. Managers from most departments will have their own tables and games to host. This is sure to be an event you don't want to miss!

**It's also ice cream month and we are celebrating all month long. Check Wednesday's ice cream cart for specialty ice creams!**

Our newest addition to our event calendar has been video shopping. We have gotten questions on what this is and how it works. What we will be doing is face-timing (live video feed) from certain locations. We have been window shopping at Walmart and Cracker Barrel to ensure that our cameras and set work according to plan. It did not on our first attempt. We do plan on being able to allow the residents to pick out items on our next trip, which will be in August. For the month of July we will visit down town St. Charles during the Riverfest parade and interact live with the residents. We are looking forward to all of our video shopping and excursions out and about!
